

## MOTHER!

Clean Child's Bowels with  
"California Fig Syrup"

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works for the constipation, poison, sour bile and waste out of the bowels, and you have a well, playful child again. Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

ACIDS IN STOMACH  
CAUSE INDIGESTION

Create Gas, Sourness and Pain  
How to Treat

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food acids, causing the disagreeable symptoms which every stomach sufferer knows so well. Artificial stimulants are not needed in such cases and may do real harm. Try instead the acid tablets and instead of getting from any druggist a few ounces of Bismuthated Magnesia and take a teaspoonful in a glass of water after each meal. This sweetens the stomach, prevents the formation of excess acid and there is no sourness. The acid tablets (Bismuthated Magnesia in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

RELIEVES SICK HEADACHE, acts as an antacid, (a vegetable extract) to tone and strengthen the organs of digestion and assimilation. Improves Appetite, Relieves Constipation.

Used for over 30 years. Chips off the Old Block. NO JUNKS—Little No. One-third the regular dose. Made of same ingredients, then candy coated. For children and adults.

NAVAL HOLIDAY  
SEEN AS PERIL  
TO U. S. SAFETY

With Anglo-Japanese Alliance in Force, Ship-Scrapping by This Country is Condemned.

By PROF. TARAKNATH DAS,  
International Secretary, Friends of  
Freedom for India.

American people who look only on the surface of the Washington conference for limitation of armament are wildly enthusiastic about it, because to them it means world peace. Probing into the details one gets a very different view.

The conference, in its method of dealing with the problems, has put the cart before the horse. Mr. Hughes put his plan of scrapping warships and particularly of curtailing the American Navy through the plan of a ten years naval holiday first, without taking into consideration the solution of the Pacific problems. His proposal increases the menace of British navalism, because by it America not only ties her hand regarding building a navy to preserve American security, but also gives Britain full opportunity to recover from her financial plight. Britain wants the naval limitation proposals made binding by treaty, without regard to solutions of the Chinese and other Far Eastern problems.

Anglo-Japanese Tie Menacing. America has proposed to cut down her own navy and we find that British colonies like Australia, New Zealand and South Africa are insistent upon renewing the Anglo-Japanese alliance unless it be transformed into an enlarged agreement of America, England and Japan. America cannot safely get into any alliance with those nations; thus the Anglo-Japanese alliance in some form or other is bound to be renewed, and the Prince of Wales will be in Japan soon to cement the bond between Japan and Britain in their plan of preserving mutual interest.

If Mr. Hughes' navy cut plan be agreed upon, then with the Anglo-Japanese alliance in force England and Japan will have at least eight to five in battleships and an even greater advantage in merchant ships which could be turned into fast cruisers. So far the proposals from the various governments say nothing about limitation of naval bases. Fleets without adequate naval bases are of no special value, and British plans of controlling naval bases and sea routes has not been given up. Singapore, within striking distance of Manila, is going to be one of the biggest naval bases for Britain. There will be separate naval units for Australia, the China sea, and Canada, and the British West Indies will be used as naval bases in case of emergency against America.

British Advantage Increased. Under the Hughes proposals, then, the menace of British navalism is enhanced, especially if the American public allow themselves to be deluded by any agreements arrived at in the conference.

It is very desirable that the Anglo-Japanese alliance be abrogated before there is any scrapping of the American navy. Congressman Tinkham of Massachusetts presented a resolution to this effect a few days ago. Then the second condition for securing national safety is that America should demand Britain hand over the British islands in the Caribbean sea, crediting her with payment of interest and parts of the debt due to America.

As long as the Anglo-Japanese alliance, which menaces world peace, remains in force, America instead of disarming, should build a navy powerful enough to cope with that combination.

Three Women Pass Bar Test. LONDON, Nov. 30.—Four women have passed their final examinations for the bar, but the does not mean that they become barristers immediately. They have to finish their course, so that they will probably be called to the bar during next year.
